

SHINING 3D®

EinScan Industrial Pack

Capture high-accuracy and high-resolution

The EinScan-Pro PLUS Industrial Add-on contains a turntable and high-end tripod to allow for engineering-grade scanning of objects in an automated fashion. Used in conjunction with the EinScan-Pro Plus 3D scanner, the Industrial Addon package gives scan accuracy up to 0.05 mm.

Auto scan objects as heavy as 10 lbs and from 1.5 to 6+ inches in size.

Industrial Pack enables Fixed Scan with or without turntable to achieve high accuracy and details of scanned 3D data.

SHINING 3D®

Industrial Pack enables Fixed Scan with or without turntable to achieve high accuracy and details of scanned 3D data.

Fixed Scan with Turntable

For completing a 360-degree automatic scan in few minutes. Recommend for small objects, such as industrial components, ornaments and small artistic pieces.
